Current clients of Agentive will be provided a 10% discount for each registrant.

COURSE DESCRIPTION

The Agentive MDS 3.0 training course is based on the CMS Train The Trainer Conference that we participated in this past April 2010. The course materials will also incorporate information from the SNF Open Door Forum Conference Calls as well as CMS SNF PPS Conference Calls. Additional information has been provided by staff members Certified in MDS 3.0 from the AANAC and the NRAI organizations.

This two day training course will review each MDS 3.0 section in detail including coding requirements, coding nuances and coding examples. We will discuss the processes recommended by CMS for the completion of each section and specifics related to the questionnaires and tests involved. Significant time will be spent on the interview techniques and processes as well as the changes to ADL section and the RAP to CAA transition. Schedules and planning tools will be provided for transition from MDS 2.0 to MDS 3.0, timeline changes related to completion of the MDS and transmissions.
